

Taking on global challenges

Together we make change happen! A solution-focused approach to create an inclusive and sustainable economy

Campaign that inspires businesses to engage with the community

Empowering young people to become ambassadors of change

A science-based method to give youth a helicopter view and help them navigate in life

Our "Stop the Culture of Waste" call to action is about creating a circular economy that turns waste into resource

Call to action!

Everything started with 200 students from Krakow. They were the first to say Stop the Culture of Waste. As a result over 100 tons of waste-paper turned into 2,000 books for public libraries in 314 Polish Powiats. Join the campaign!

A unique book

2017 - Canada's 150th 75 years of diplomatic relations with Poland

Grassroots campaign to bring to Poland a Canadian best-seller about the fate of a Polish family emigrating to Canada.

Historical gesture that resonates today

Stories that need telling

Arlette Cousture
Canadian writer

” I wrote this book with a great admiration for Poland and its people. Knowing my novel will be held in the hands of Polish readers makes me proud and happy. My „characters” are finally home and I, after many years, will be back in Poland again.

Margo and Adam Koniuszewski
Founders, The Bridge Foundation

” As members of the Polish-Canadian diaspora, we want to share this extraordinary story. A gripping tale that promotes Poland, its culture and history.
